

LEARN. INTERACT. CONNECT.

AND SEE ALL THE LATEST INNOVATIONS
IN LABORATORY SCIENCE.

February 28 – March 5, 2010 • Orlando, FL USA

Exposition March 1 – 4, 2010

www.pittcon.org

PITTCON
CONFERENCE & EXPO **2010**

WELCOME TO PITTCON 2010: THE MOST COMPREHENSIVE CONFERENCE AND EXPOSITION ON LABORATORY SCIENCE

There are thousands of reasons to attend Pittcon 2010.

Pittcon offers a unique opportunity to learn about the latest scientific and technical developments.

WOLFRAM MIEKISCH, Ph.D.
Analytical Research Leader, Dept. of Anaesthesiology and Intensive Care Medicine, Universität Rostock

You can see so much in such a short time, so conveniently.

ANNY S. LAU
Senior Chemist, Orange County's Groundwater Authority

Pittcon is a community of people, a family of scientists.

CHIMEZIE ANYAKORA, Ph.D.
University of Lagos, Lagos, Nigeria

Learn from the Technical Experts

- Short Courses
- Workshops
- Invited Symposia
- Oral Technical Presentations
- Poster Sessions
- Plenary Lecture
- Scientific Achievement Awards
- Lunch and Learn Programs

Evaluate Vendors and Suppliers

- More than 1,000 exhibitors
- Meet face-to-face with the experts
- Troubleshoot technical issues
- Evaluate the latest instrumentation
- Compare and contrast products and vendors
- See hands on product demonstrations
- Visit special interest areas
 - Life Sciences
 - Informatics
 - The Green Corner
 - New Exhibitors
 - French Pavilion

Interact with Scientists from Around the World

- Welcome reception and poster session
- Scientific networking sessions
- Social events
- Employment Bureau

Co-Programming with Scientific Societies

- ACS Division of Analytical Chemistry
- ANALITICA Latin-America
- Association for Laboratory Automation
- Association of Lab Managers
- Japan Analytical Instruments Manufacturers Association
- Professionals' Network in Advanced Instrumentation Society
- Society for Applied Spectroscopy
- Society for Electroanalytical Chemistry

PRE-REGISTRATION DISCOUNT

Only \$95 for the
entire week, if you register
by February 1, 2010.

IF YOU ARE INVOLVED IN LABORATORY SCIENCE, PITTCON IS THE ONE EVENT YOU CAN'T AFFORD TO MISS.

It's the scientific event of the year! Thousands of attendees will gather at Pittcon in Orlando, Florida, from February 28 to March 5, 2010, to see the newest instrumentation, exchange innovative ideas, and learn about the latest advances. Pittcon is a one-of-a-kind, educational experience where you can advance your own scientific interests, as well as gather technical information that will help you and your colleagues back in the lab.

A High Quality, Multi-Discipline Educational Experience

Pittcon affords a unique, broad-based educational opportunity in the sciences. Learn from leading scientists from industry, academia and government who will present their most recent research or discuss today's most pressing scientific issues. With more than 2,000 technical presentations, you can concentrate on your specific discipline or gain exposure to diverse technologies. Either way, you will come away with knowledge that will enhance your professional growth and scientific skills. Here's a brief selection of some of the topics to be covered in the Technical Program:

- Alternative Fuels
- Atomic Spectroscopy
- Chemical Imaging
- Electrochemistry
- Environmental
- Food Quality/Safety
- Forensics
- Homeland Security
- Industrial Hygiene
- Informatics
- Life Science
- Mass Spectrometry
- Materials Science
- Microfluidics
- Nanotechnology
- Petrochemical
- Pharmaceutical
- QC/Validation
- Regulatory Affairs
- Separation Sciences

New Pittcon is providing free access by registered conferees to select symposia Webcasts for two months following the Conference. Visit www.pittcon.org to review the complete Technical Program.

Collaborate with your Colleagues During Interactive Networking Sessions

Enjoy the many opportunities to interact with other scientists who share your interests. Even more networking sessions have been scheduled in 2010 to provide a stimulating, face-to-face forum to brainstorm new ideas, discuss novel techniques, or resolve problems on topics of mutual interest. General categories of discussion topics for these informal two-hour sessions include:

- LC-MS, ICP-MS, SFC, IC
- High Throughput Pharmaceutical Purification
- Forensics
- Process Analytical Technology
- Microfluidics
- Lab-On-A-Chip
- Food Safety
- Thermal Analysis
- Lab Data Management

Visit www.pittcon.org to review the complete list of Pittcon 2010 networking sessions.

A Global Event

With attendees representing more than 100 countries, Pittcon presents a unique opportunity to interact with scientists from around the world.

Pittcon 2010: February 28–March 5
Exposition: March 1–March 4

Orange County Convention Center, Orlando USA
www.pittcon.org

NEW AT PITTCON 2010

Technology Park

A display on the exposition floor of many of the new product and technology innovations introduced at Pittcon 2010

Pittcon Night at Universal Studios®

A special networking event just for Pittcon attendees

French Pavilion

An area set aside on the exposition floor to see the latest contributions from the French scientific community

International Help Desk

A friendly reception area staffed with interpreters to help international attendees make the most of their Pittcon experience

Short Courses to Accelerate Professional Development

Short courses are an excellent way to enhance your educational experience at Pittcon 2010—and they are a great value, too. Take three or more courses, and your conference and exposition fee will be waived. Choose from 1/2-day, full-day or 2-day courses, whichever fit your schedule, proficiency level and professional interests. Here are just a few course areas:

- Capillary Electrophoresis
- Introduction to Laboratory Current Good Manufacturing Practices (CGMPs)
- Food Safety Management System
- LIMS for Laboratory Managers
- Ultra-High-Pressure LC (UHPLC)
- Introduction to ICP Mass Spectrometry
- Headspace Analysis – Theory and Practice
- Practical Gas Chromatography
- Primer on XRF Spectrometry
- Sampling and Sample Preparation
- Effective Laboratory Waste Management
- Method Transfer of Pharmaceutical Products
- Supervisory Skills for Technical Managers
- Development & Validation of Analytical Methods

Visit www.pittcon.org to review the complete list of Pittcon 2010 short courses.

See What's New and Preview What's Coming in the World's Premier Scientific Product Exposition

The Pittcon Exposition gives you an invaluable opportunity to see what's new in laboratory equipment, evaluate products from more than 1,000 vendors, and talk to the technical experts one-on-one. There is no other single place where you can comparison shop for all of the products and services your lab uses every day. You may even find vendors whom you didn't know, but offer products you may need. If your lab is receiving government stimulus funds in 2010, Pittcon is the ideal place to make informed purchasing decisions.

You can attend vendor seminars on the exposition floor, join a Lunch and Learn meeting, or participate in live product demonstrations. Pittcon is a personal, interactive experience you won't find on the Web. Visit the Exposition and meet one-on-one with the developers and suppliers involved with:

- HPLC, ICP, GC, MS, FTIR and more
- Laboratory Apparatus, Chemicals, and Supplies
- Laboratory Automation
- Informatics and Analytical Software
- Green Chemistry Solutions
- Contract Laboratory Services
- OEM Parts and Dealers
- International Representatives
- Scientific Publishers
- Professional Societies

Visit www.pittcon.org to review the complete list of Pittcon 2010 exhibitors.

Plenary Lecture

Dr. Alan G. Marshall, Kasha Professor of Chemistry and Biochemistry, Florida State University and Director of the Ion Cyclotron Resonance Program at the National High Magnetic Field Laboratory, will deliver the plenary lecture, *The Role of High End Instrumentation*.

Date: Sunday, February 28, 2010

Time: 4:30 p.m.

A Small Investment with a Great Return. Register Today!

Register early (before February 1, 2010) and pay only \$95 and experience all that Pittcon has to offer for the entire week:

- Admission to all Technical Presentations
- Admission to the Exposition
- Conference Abstracts on CD
- Free access by registered conferees to select symposia Webcasts for two months following the Conference
- Employment Bureau
- Complimentary Social Mixers
- Pittcon 2010 Souvenir
- Free Wireless Networking
- Discounted Hotel Rooms
- Travel Assistance
- International Visitor Assistance
- Child Care

To learn more about Pittcon 2010, including the full program agenda and exhibitor list, visit us at www.pittcon.org.

Questions? We're ready to help. Call (800) 825-3221 or (412) 825-3220, or send email to info@pittcon.org.
